Traveller

Portable Headphone Amplifier

Your life. Your sound.

The Traveller sets a new standard in the league of mobile headphone amplifiers. We have designed it for a generation who is constantly on the move: no matter if at home, in the office or when travelling – this elegant companion will always give you a unique sound experience, everywhere. And the Traveller lives up to even the highest aesthetic demands.

On the go around the clock and at home wherever the pulse of life can be felt – this is you. Our Traveller is just the right companion for you: despite its compact size, it will always elate you with excellent sound quality on all your voyages and in the meantime even cuts a fine figure.

A comfortable companion

Besides its practical size and ease of use, we also focus on outstanding sound quality in our mobile companion. This is the result of our decades of experience in the audio sector and our infinite passion for music. The Traveller's intuitive handling requires only two pushbuttons. The volume control works electronically and is therefore utterly precise. With a maximum battery runtime of more than 20 hours the music won't stop playing even on the longest flights. Moreover our fully analogue headphone amplifier is compatible with all players. Headphones and players find contact via solid mini jack sockets from Lumberg. The Traveller will drive even demanding headphones hands down and may also double as a preamp for active loudspeakers.

Highlights

- analogue headphone amplifier fitting in every pocket
- intuitive handling
- up to more than 20 hours of battery runtime
- compatible with all players
- Lumberg mini jack sockets
- usable as preamp for active loudspeakers
- 'Center Adjust', an innovative built-in balance adjustment without additional electronic parts

Tech Info

Input impedance	47 kohms	Connectors audio	each 2 x 3,5 mm minijack Stereo for Line In and Line Out/Headphone Out
Maximum gain	10 dB	Battery	LiPo 3,7 V, 4,000 mAh
Frequency response	20 Hz to 30 kHz (-0,5 dB)	Battery runtime	up to more than 20 hours on a single charge (dependent on volume)
Signal to noise ratio	> 95 dB RMS unweighted at gain 0 dB	Connection power supply	Micro-USB, 500 mA charging rate
THD	< 0.02 % at 3 mW, 330 ohms	Charging time	app. 6 hours (with a 500 mA charging device)
Channel separation	> 80 dB, 10 kHz	Outer dimensions W x D x H	80 mm x 90 mm x 25 mm
Tracking error	< 0.3 dB	Weight	196 g netto
Output power	• 12 mW at 330 ohms • 120 mW at 33 ohms	Version: June 2014. Subject to change without prior notice.	
Output impedance	3 ohms		

‘I never leave the house without my Traveller!’

Tom, Art Director

‘Whether I’m on the train or plane, I always have the Traveller in my bag.’

Maike, Sales Manager

‘When I bring the Traveller to a party, we always know we’ll have a good night!’

Jo, Musician
