## Stamp SE

Power Amplifier

# The aesthete among the power amps

The Stamp SE is a compact, trend-setting stereo amplifier which has caused a sensation in the audiophile world because of its impressive sound, combined with the high-class design of our attractive Linear SE. With its small size, its unique sound and the elegant housing variations it's an antithesis to the clumsy power amp giants.

### Balm for the soul

Whether it's the calm in life's stormy weather or a change in your daily routine, be they merry or melancholic notes: your music will always give you what's just right for you at any given moment. Here our Stamp SE would like to spoil you with an impressive sound which goes deep under your skin. Besides the acoustic top performance our compact amplifier can also put an elegant, customisable design in the balance.

Like all our devices, the Stamp SE is manufactured in Germany with utmost care and fitted with premium components. For the next generation of our well-known Stamp we use components from Mogami, ahp and Mundorf. That way we achieve a greatly improved transient behaviour and spatial representation of your favourite sounds. SSC feet and a thicker housing wall gauge help dampen vibrations and microphonic effects. You'd rather assure yourself first-hand of the audible advancements and the elegant housing variations: owing to the manifold refinement options you can create your very personal high-end gem and look forward to an acoustical and visual delectation each and every time.

### Highlights

#### 📋 Features

- Capacitors from Mundorf in the signal path to provide a greatly improved transient behaviour and spatial representation
- An ahp microfuse
- SSC feet and a thicker housing wall gauge help dampen vibrations and microphonic effects
- High-quality interior wiring from Mogami

#### 🛠️ Accessories (optional)

- 3S Gerätefüße
